

## **Public Poll Findings: Peace with the Palestinians**

January 2014

Following are the findings of a public opinion poll taken between January 6-7, 2014 among 500 people as a representative sample of the adult Jewish population (18+) of Israel.

*Commissioned by the S. Daniel Abraham Center for Middle East Peace*

## Summary of Poll Findings

### Israeli-Palestinian Peace Agreement

If the government of Israel brought to a referendum a peace agreement that would end the Israeli-Palestinian conflict, and whose implementation would take place only after the Palestinians would fulfill all their commitments with an emphasis on fighting terror, and the implementation would be monitored and verified by the United States, will you support or oppose an agreement based on the following principles:

1. Two states: Israel the state of the Jewish people and Palestine the state of the Palestinian people.
2. Palestinian refugees will have a right to return only to the new state of Palestine.
3. The Palestinian state will be demilitarized, without an army.
4. Borders will be based on the 1967 lines and will include land swaps equal in size that will take into consideration Israel's security needs and will maintain the large settlement blocks under Israeli sovereignty.
5. Jewish neighborhoods of Jerusalem will come under Israeli sovereignty and Arab neighborhoods under Palestinian sovereignty.
6. The Old City within the walls will be without sovereignty and will be jointly administered by the United States, Israel and the Palestinians. The Holy Places will be under the same religious supervision as current arrangements (for example, the Kotel will be under Israeli supervision and responsibility).
